Bachelor of science : Civil Engineering (2020)
Barishal Engineering College,
Barishal

SUMMARY

With a focus on front-end development as a Senior Civil Engineer, I offer a wealth of expertise covering every stage of dynamic building project development. I'm adept in a range of engineering software tools like AUTO-CAD, CSI-ETABS, REVIT, and ENSCAPE. Additionally, I have a solid foundation in project management and fostering positive customer relationships.

WORK EXPERIENCE

Site Engineer

(02/2020 – 06/2021)

Build Wise Engineering, Dhaka

Work with engineers to create buildings and systems that are easy to use and understand. Come up with ideas for projects and make sure everything runs smoothly. Help senior engineers handle big projects for customers. Design both the front and back parts of websites and make sure they work well. Test everything to find mistakes and make things easier for people to use.

Assistant Engineer

(09/2021 – 08/2022)

Structura-Pro, Dhaka

Collaborate closely with engineers to devise infrastructural solutions and systems that prioritize user-friendliness and comprehension. Engage in the conception of project concepts and ensure their seamless execution. Facilitate the management of large-scale endeavors by assisting senior engineers in orchestrating intricate projects for clientele. Undertake the intricate task of designing both the frontend and backend components of websites, ensuring their cohesive functionality. Conduct thorough quality assurance assessments to pinpoint errors and enhance user accessibility and experience.

Civil Engineer

JUNIOR ENGINEER

CHARACTERISTICS

- Strong decision maker
- Complex problem solver
- Good manners
- Teamwork capacity
- Ability to motivate staff

LANGUAGES

- English (Excellent)
- Japanese - N5

Assistant Engineer

(10/2022 – 06/2023)

Port-City Engineers, Chittagong

Encourage and guide employees to achieve service, quality, and repair targets. Create and adjust project schedules while keeping service standards in focus. Recruit skilled workers and service personnel, prioritizing those who are diligent and self-aware. Keep thorough records of project schedules, service provided, profits, and budget details. Assist in troubleshooting and resolving construction issues while staying up-to-date with operational procedures.

Project Management

(08/2023 – 05/2024)

BayView Infrastructure, Comilla

Provide motivation and guidance to employees to ensure the attainment of service, quality, and repair objectives. Develop and fine-tune project schedules with a keen emphasis on maintaining service standards. Undertake the recruitment of proficient workers and service staff, giving precedence to individuals who demonstrate diligence and self-awareness. Maintain meticulous documentation of project schedules, service provisions, financial gains, and budgetary information. Offer support in diagnosing and resolving construction-related challenges while remaining abreast of evolving operational protocol.

OTHER

Civil Association

Urban Development Alliance

(2022 – 2023)

A civil association focused on the development and improvement of urban areas. It implies collaboration and partnership in the advancement of urban environments.
